Thus spoke Hon John Ena, president of the Inter-Island Steamship Company, when approached by a reporter in his office yesterday.

### present High Sheriff OWES LIFE TO HIS COURAGE

#### Hanrahan stated to the Advertiser: Sheriff - Chillingworth Barely Escapes Death.

Deputy Sheriff Chillingworth would have been shot and probably killed yesterday but for his rare nerve and presence of mind.

Charles Heffernan, a prisoner in his charge, made a desperate effort to murder him shortly after dark. Heffernan. who had escaped from the police station where he was held on a forgery charge, had been recaptured by Chillingworth and was being taken to Oahu Jail when he drew a revolver and thrust it into his captor's face threatening to kill him. Chillingworth made a sudden move, overpowering Heffernan and doubtless averting a tragedy.

Heffernan is a man about forty years old who has lived in Hawaii for many years. Chillingworth knew him in Maui ten years ago. Sometime ago Heffernan after various escapades as a hackman, laborer and stage driver, married the daughter of William Goodness who owns the Wailuku Stables, and went to live with his father-in-law. He was soon in money difficulties and it is said once drew a revolver on Goodness to force him to give him funds.

Recently he went to Kauai and there passed forged checks to which Goodness' name had been signed. High Sheriff Brown was written to about the matter and when the fellow came here by Brown. He was unable to get bail and remained in the police station, his hearing being set for this morning.

McInerny Brothers accepted two checks for \$75 each bearing Goodness' "Captain Parker then said: "If you signatures and when these were seen by Sheriff Brown he swore to additional charges of forgery. Heffernan was confined with other prisoners in the station and yesterday morning was turned into the prison yard at'6 o'clock. About a half an hour later he was missed and a hurried search proved that he was

Deputy Sheriff Chillingworth was telephoned for and went to the station. A further search failed to give any clew but made it evident that the fugitive had climbed over a high iron gate at the head of a pair of stairs which can be reached from the yard. Thence he had gotten into the office of Sheriff Brown and out of the window to the street. Marks were found by which the route was traced.

Sheriff Brown superintended the hunt for the missing prisoner and under his and Chillingworth's directions officers were sent in every direction.

All sort of clews were followed. Heffernan's wife was interviewed at George Cavanaugh's on Fort street. above Vineyard street, where she is
